Project Name	AgroSense AI – Intelligent Crop Recommendation System
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to choose the right crop for my land. • I need accurate and simple recommendations • I want to increase my crop yield and profit	THINKS • Which crop will grow best in my soil? • Will this recommendation improve my income? • Can I trust the prediction provided by the system?
PERSONA NAME <i>(Role / User Type)</i>	
DOES • Enters soil and weather details into the application. • Reviews the recommended crop and confidence score. • Cultivates the suggested crop for better productivity	FEELS • Confused when choosing crops without expert advice. • Hopeful after receiving an AI-based recommendation • Confident about making better farming decisions.
